President's Message *February 2018*

Greetings Folks,

Welcome to a new year. This should be an exciting year with the Reliability Tour coming up in August. Our club events calendar is off to a good start and I even have a couple of member photos for the back page of the Headliner. Unfortunately, by the time we get into May, the calendar is devoid of anything other than monthly meetings and I will be out of cover photos. I know you know what this means. Your officers and directors can not do everything. We all give of our time and talents freely but it is up to you, the individual members, to step forward and help out. Think about sponsoring a club outing. If you need help, team up with another member. If you have some good photos, share them. Without interesting events to keep our members active and involved, the future of Wayne Drumlins does not look good. Joel is always interested in being able to add to the calendar and I am always looking for material to share here in the Headliner.

Elsewhere in this issue, there is a reminder of the upcoming Elks Lodge breakfast with Carl and Annette. This is a charitable fund raiser put on by the Elks and all proceeds are used for local Muscular Dystrophy research and patient support.

For anyone interested, though not a Club event, every third Sunday of the month, the Canandaigua post of the American Legion hosts a breakfast buffet. The food is good, the menu varies from month to month, and the price of \$8 per person is most reasonable. Proceeds from these breakfasts are used by the Legion for their Veterans Support Outreach programs. Brenda and I make it a point to try to attend every month. We would welcome your company.

I have also included information on the Kidde fire extinguisher recalls as well as some information on a new exhibit at the Ontario County Historical Society.

Hopefully this finds everyone well and we will see you soon. *Dick*

Secretary's Minutes

The secretary's minutes will be returning with the March issue of the Headliner

Get Well Wishes to:

Carl Rapp who is dealing with right shoulder issues. He has seen several specialists and is still trying to get everything back to normal.

Matt Palmer from Palmer Automotive in Canandaigua. Matt has joined AACA and looks forward to being an active member of Wayne Drumlins. Matt slipped on ice in December and broke his pelvis. Recovery is slow but he is making progress.

Dick Stearns was presented with the Wayne Brownell Memorial Award at the Year End Banquet. He is seen here with Chairman of the Board, Matt Canavan. The Wayne Brownell award is presented to a club member selected by the officers and board members for their significant service to the Club.

The Stu Adair Memorial Award recipient has been selected but was unable to attend the banquet. The award should be presented at our February meeting. The Stu Adair award is presented to the Club member who has done the most to help a fellow Club member or family.

Carl Rapp's new play toy is a 1941 Willys Jeep. Carl not only found this one, he also located a second one in the area that is good for parts.

This should keep Carl busy for a while.

18-July	Monthly Meeting	Phelps Community Center	7:00 PM	
19-Aug to 24-Aug	AACA Reliability Tour	Geneva		Steve Heald Chairman

Just a friendly reminder:

We need your help. There are some interesting events showing for February, March, and April. Beyond that, we really need ideas to keep our Club alive and interesting for all of us. Remember, anyone can host a club event. Contact Joel Neal for assistance in scheduling. All that is necessary is an idea and a willingness to make a couple of phone calls to set up reservations as needed. The August meeting is not posted as of yet pending what is needed to meet our obligations for the Reliability tour. September, October, and year end events will be addressed in the next couple of months.

An Ice cream social would be nice some time and any thoughts as to when in mid September to early October would be a good time for the President's Picnic, let Joel or myself know so we can get it scheduled.

Dick

Sunday, February 4th, Carl and Annette will host breakfast at the Canandaigua Elks Lodge, 19 Niagara Street, Canandaigua. We are meeting at 8:30. This is a fund raising activity for the Elks and all proceeds go to help support local charitable work. The food is prepared to order and always good. The price is very reasonable. Lets have a great turnout for this event.

Happy Anniversary to:

None listed for February

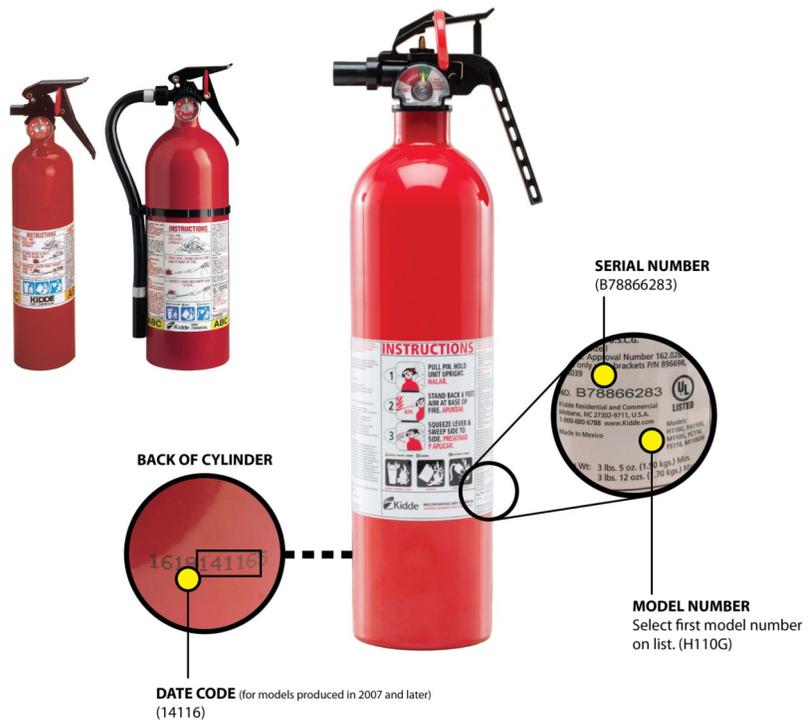

Happy Birthday to:

Joel Neal 2/2
 Alan Canne 2/11
 Amy Ressue 2/11
 Anne Rapp 2/25

Important Information

Last November Kidde issued a recall of many of their fire extinguishers. The recall involves 134 models of Kidde fire extinguishers manufactured between January 1, 1973 and August 15, 2017, including models that were previously recalled in March 2009 and February 2015. All of their plastic handle units with a vertical locking pin, along with the push button Pin-dicator models, are affected. Metal handle units and curved plastic handle units with horizontal pull pins are not part of the recall. These units were sold under not only the Kidde name, but also other names. A partial list includes: Ademco, ADT, All Purpose, Bicentennial, Costco, Fire Away, Force, Fuller, Fuller Brush, Gillette, Home, Honeywell, J.L., Kadet, KX, Mariner, Master Protection, Montgomery Ward, Quell, Sams, Sanford, Sears, Traveler, Volunteer, XL.

The units were sold in various sizes and red, silver, and white colors. The best advice is to look at what you have then go to the Kidde.com website. You can also Contact Kidde at (855) 271-0773 between 8:30 a.m. and 5 p.m. EST Monday-Friday (excluding holidays), or between 9 a.m. and 3 p.m. during the weekend to determine whether your extinguishers are affected. If you have a recalled extinguisher they will send a replacement free of charge and the paper work to return the old extinguisher.

These safety units are something none of us ever want to have to use, but a defective extinguisher is worse than no extinguisher at all.

Of Interest

The Ontario County Historical Society & Museum, 55 North Main Street, Canandaigua, is hosting

MOTOMETER EXHIBITION:

Early twentieth century radiator-mounted engine temperature indicators

in their north gallery from February 3rd to September 8th. It is open to the public during normal museum hours. Any of us who follow the early days of automobile history should find this an interesting exhibit. More information is available on the Society's web site, www.ochs.org

Cover photo

1963 Buick LeSabre Convertible
Owner Ed Morrow

Ed became the proud owner of this beautiful automobile in 1985. He is the third owner. The car has been well cared for and Ed says that it is all original including the paint, top, and even the rear window. With only a little over 63 thousand miles on it, it is hardly broken in. It is equipped with power steering and brakes, power assisted seats, and a tilt steering wheel. Interestingly, it does not have power windows.

Ed

Canadian Speed Control!

Speed control being tried in Canada . How's this for effective speed control?

I don't know about you, but this would certainly slow me down!

People slow down and actually try to "straddle" the hole

This is an actual speed control device that is currently in use.

It is MUCH cheaper than speed bumps, cameras, radar guns, police officers, etc.

Pretty clever -- especially when they move them around every day.

Isn't Art Wonderful?

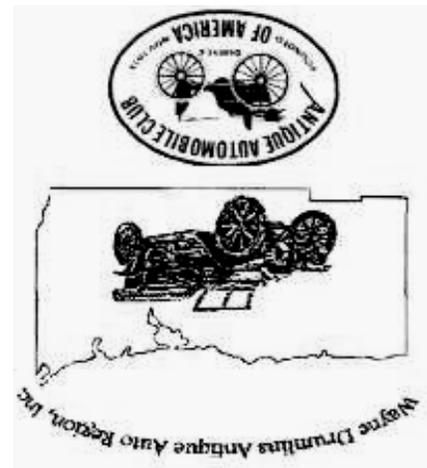

This was shared with me by one of my Canadian friends. Interesting idea. Actually, in a way we have Canada beat. We don't need an art department. We grow our own pot holes the natural way. Then again, we can't move ours around on a daily basis but we have enough we don't need to move them.
