## President's Message November 2010

Well, it's officially fall. Hershey is over, the leaves have pretty much fallen and it's time to get the cars ready for another winter. We were truly blessed with a great summer and the weather in early fall has been spectacular as well. Hopefully we'll have a few more nice days to get our cars out and go for a ride or two before the salt goes down.

Several Drumlins' members were observed at Hershey, enjoying the sunshine, warmth, rain, lack of rain, car parts, car show, food, drink, socializing, and everything else that means Hershey. That one would have to rate as one of the best.

A big thank you goes to Charlie and Nancy Bauder for hosting a great day on October 24th. A large group of Drumlins' members met at the Benton Center Fire Hall and motored to the Glenn H. Curtiss Museum in Hammondsport. We enjoyed a personal tour of the facility and learned many things about Mr. Curtiss and his development of the motorcycle and aeroplane. After the tour we travelled to Branchport for dinner at the Valley Inn. The delicious food was surpassed only by the company. Thanks again to the Bauder's, it was quite a day!

As I said in last month's message, remember that the November meeting is our annual election of officers. If you want a say in how the club is run, please make your opinions known by voting them. It's not too late to get your name into nomination for an office, just let Dave Dorf or Bob Good know. And please try to make it to the meeting at the Marion Masonic lodge on the 10<sup>th</sup>. Remember, your vote counts.

Motor On,  
Steve.

### 1974 Fascination Car -2 door Sedan.

Called "Tomorrow's Car Today" by creator Paul M. Lewis, Fascination was developed in Lakewood, Colorado. Ultimately 5 were built. Three of them, including this one which was the 2nd car produced, were powered with a Renault engine. Futuristic in appearance, Fascination has 1 feature many of us might wish for today—it is possible to turn this 17 ft. long car around a full 180 degrees within its own footprint.

On this day, 9/21/1893, Frank Duryea drives the 1st US made gas propelled vehicle (car).

On this day, 10/1/1908, Henry Ford introduces the Model T car at a cost of \$825.

## Hershey 2010

This car is not a Canadian Chevelle nor is it a Pontiac. It wears no Chevy or Pontiac emblems. Beaumonts were their own line and were titled and registered as such in Canada. They were marketed through Pontiac dealers between 1964 and 1969. No Beaumonts were ever sold in the U.S. The SD models stood for Sport Deluxe and today represent some of the rarest Big Block GM Muscle cars ever built.

## We've SOLD the Car

We've sold the car, a good old friend,  
The good old car is at an end.  
Some other hand will have the fun,  
And try to make the old car run.

We've traded in the good old car,  
For that's the way that people are.  
Old age had come, and youth had gone,  
And so we passed the old car on.

It seems unkind, it seems unfair,  
But that's the way that friendships wear.  
Yet none can say we did not praise  
It even in its saddest days.

Yes, if you think we did not claim  
We loved the old car still the same,  
And swear it was as good as new,  
Then ask the man we sold it to.
